

# OH ESPRESSO

## OH CAPPUCCINO MILK FOAMER

The new Oh Cappuccino milk foamer is a great product that complements the Rombouts coffee pod machine. You can foam around 150-250ml of milk at a time. Simply choose between cappuccino or latte, click the foaming jug on and within a couple of minutes you'll have rich, creamy foam to make an impressive cappuccino or latte!

The jug is Teflon coated, making it easy to keep clean.

The Oh Cappuccino can prepare foamed milk for around 30 cups per day.
